SIGN POST HOLDER

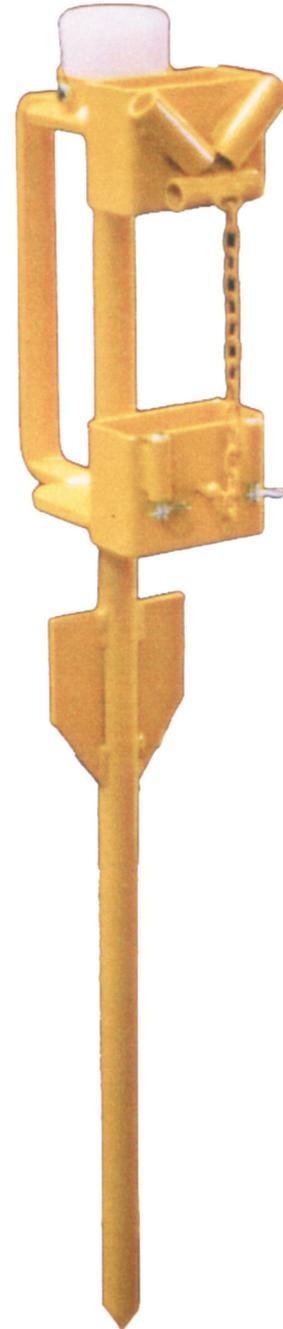

MODEL SS3

FEATURES & SPECIFICATIONS

- Carrying Handle
- Fins to Prevent Rotation
- High Impact/Replaceable Driver
- Sign Pins Included
- Pinned Post Base
- Flag Mounts
- Overall Length 36"
- Weight: 15 lbs.

* Flag & Post Not Included

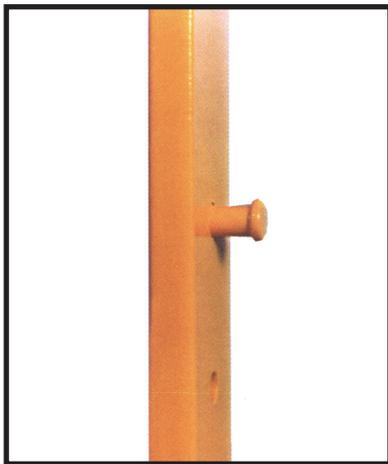

FLAT BAR SIGN STAND

MODEL FB9

FEATURES & SPECIFICATIONS

- Carrying Handle
- High Impact Replaceable Driver
- 3/8" thru Holes For Mounting Flag
(11" and 16" Centers)
- 3/8" Pins with Heads
(11" Centers)
- Easy Driving
- Overall Length: 51"
- Weight: 17 lbs.

* 3/8" Pin With Head Used With Mini Flags

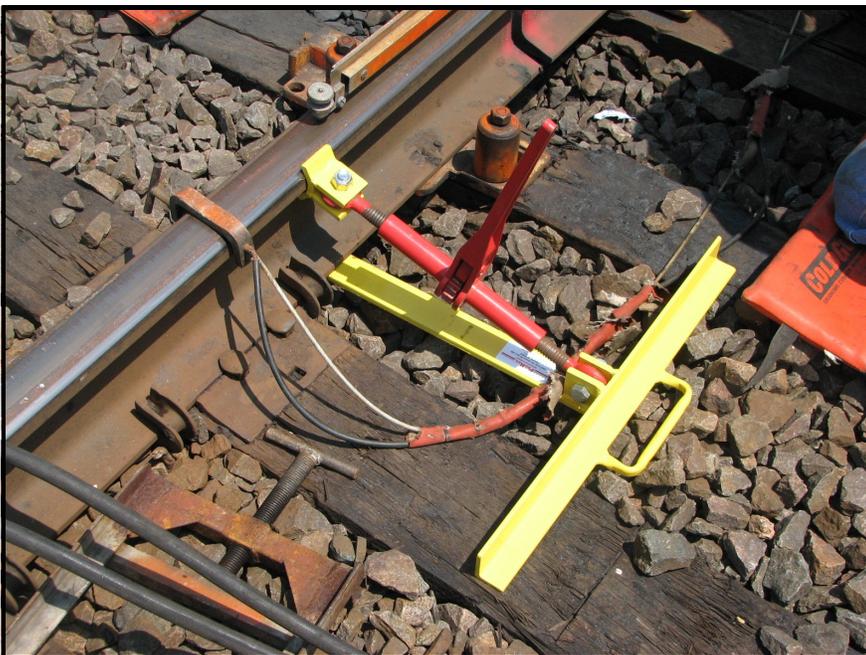

RAIL JOINT ALIGNMENT TOOL

MODEL PeeWee

FEATURES & SPECIFICATIONS

- Remove Twist At Rail Joint During Welding
- Specializing At Joints Near Frogs And Switches
- Move Head Of Rail While Keeping The Base Stationary
- Can Be Used By One Person
- From Alignment To Start Of Weld Is Only Minutes
- Can Be Used On Any Size Rail
- Carrying Handle
- One Piece Design
- Weight 18 lbs.

TIE PLUG DRIVER

MODEL PD52

FEATURES & SPECIFICATIONS

- Hand Grip
- 5/8" Square Hardened Driver
- Hand Protector Eliminates Pinch Point
- Internal Impact Resister Eliminates Distortion
- Overall Length: 58"
- Weight: 10 lbs.

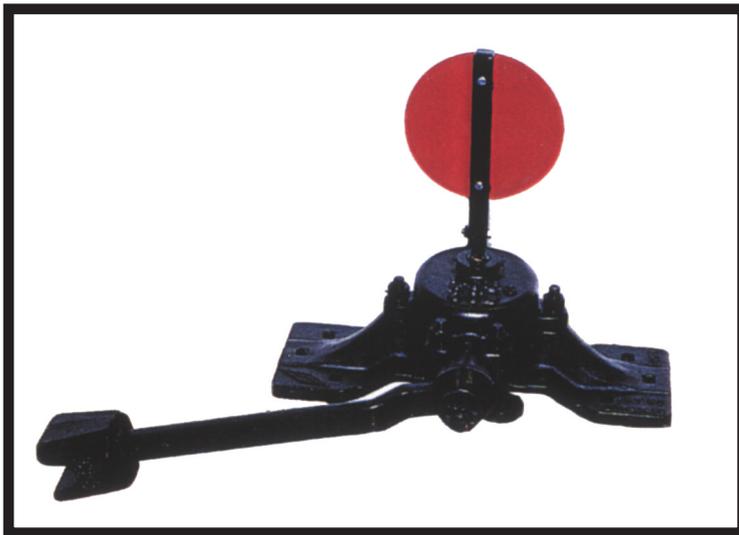

MAST EXTENSION

HUB STYLE SWITCH STAND

MODEL H13

FEATURES & SPECIFICATIONS

- Hardware Supplied For Mounting
- Clamp Mounting/Through Mounting Holes
- Holes For Sign/Sign Bolts Not Included
- Overall Length: 13”
- Weight: 2lbs.

*Flag & Switch Stand Not Included.

MULTI-HOLE LOCKING PIN

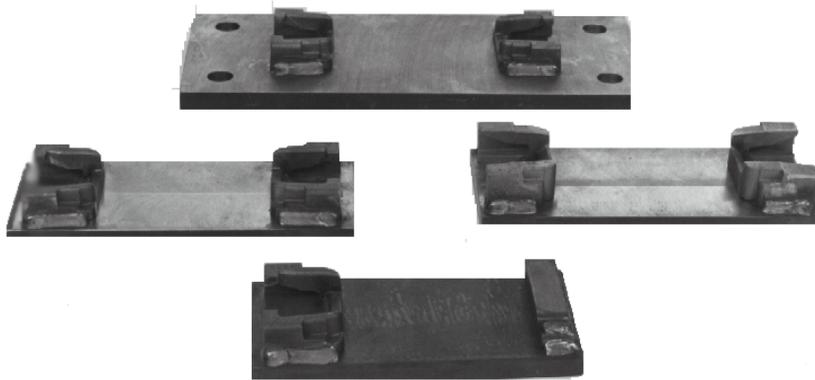

MODEL LP40

FEATURES & SPECIFICATIONS

- Zinc Coated Assembly
- Chamfered End
- Multi-Locking Holes
- 9" Attaching Chain
- Weld or Bolt Mount
- Locking Hole Size: 29/64
- Overall Length: 6 1/4"

SPECIALTY TIE PLATES

FEATURES & SPECIFICATIONS

- Tie Plate Can Be Made To Your Specifications
- Can Be Made To Use On Any Tie (Concrete, Steel or Wood)
- Can Be Made With Cants
- Are Used With Weld On Shoulders

HEATER COVER STORAGE RACK

MODEL: FR8-A4CC

Patent No. 6,571,963 B2

Rack shown with no covers

Rack shown with covers

FEATURES & SPECIFICATIONS

- Easy storage and removal
- Holds eight rail heater covers, one switch heater cover and four center covers
- Locking capabilities
- Base is mounted in ground for stability
- Zinc plated hardware included
- High quality exterior gray paint and prime
- Reflective tape for visibility
- Easy 3 step assembly instructions

DRIFT PIN STRIKING PAD

MODEL: DV10

Patent No. 6,854,945

Drift pin not included

FEATURES & SPECIFICATIONS

- Absorbs impact of driving device
- Provides a large flat striking surface
- Increases life of drift pin
- Eliminates shrapnel for safety
- Lab tested for durability
- Can be installed on new or used drift pins
- Can be custom designed for special applications

RAIL CART

MODEL RC75

FEATURES & SPECIFICATIONS

- 7500# capacity
- Deck size 6' x 8'
- 16" wheels
- Roller bearing stub axle
- All welded steel construction

OPTIONS:

- Customer specifications or special applications can be quoted
- Tow bar
- 3 axle carts

PORTABLE TURNOUT

Patent Pending

FEATURES & SPECIFICATIONS

- Includes one Ramp and eight Panels
- 20' long Panels
- Each Panel Weighs Approximately 3,000#
- Uses 90# Rail with Joint Bars
- Leveling Jacks on Panels Located over Main Line Rail
- Pick Up Points on All Panels and Ramp
- Left Hand or Right Hand Installation
- Chain Sling Provided

OPTIONS:

- Outriggers for Support
- Panels for Portable Spur

SELF-DRIVING SIGN STAND

MODEL SD20

FEATURES & SPECIFICATIONS

- **Handles for Easy Driving**
- **High Impact Replaceable Striking Pad**
- **3/8" thru Holes for Mounting Flag
(16" Centers)**
- **3/8" Pins with Head
(16" Center for Mini Flags)**
- **Fins to Prevent Rotation**
- **Tab Lock Style Double Wire Pin**
- **Extendable Flag Tube Overall Length
100" Extended, 78" Retracted**
- **Weight 21 lbs.**
